Chester, NY 10918-1812

August 2, 2018

Dear Andrea,

I am responding to the newspaper article in "The Chronicle" about residents interested in Chester waste plan.

We have been living in this area for over 40 yrs. Most of this time was in Duxton.

I don't want to see more development and enjoy the country aspect. Most disturbing is the development being built at the end of our road. With this influx of people we need an additional supermarket because Shoprite will not be enough. I would like to see senior housing and stores in the village to address residents

needs. Warrick is a beautiful little town with restaurants and stores within walking distance.

We could use a traffic light at the end of Conklington road getting on Rt. 94. This is a very concerning turn.

Lastly this is a beautiful area but if we don't preserve farmlands etc. many people will be moving out.

Thank you.

Jason Schmidt
