Good Day,

I grew up in the town of Chester on Oxford Road & am the only one of my 6 siblings to remain here, not that they didn't love growing up here, their careers moved them to different states. I have lived in Downtown Chester for over 20 years and love it. I do believe that building owners should be required to keep up the appearances of their building(s) & repaint/repair if needed at least every 5-7 years. A coat of paint can do wonders. There are so many beautiful buildings, everyone just needs to pitch in so people do want to come see beautiful downtown & shop here. With the trail right here, maybe a bike shop might do well.

I believe the Farmland should be preserved, the open land and beautiful landscapes is part of why people stayed here or move here & stay.

Please, no more housing developments or amusement park in Chester, especially with Legoland coming to Goshen. A small Tavern that also serves food might be nice or a Bakery! We already have a tattoo parlor here, I don't see a need for more then one.

Regards,
Mary Mullin Stalter
